Arlu® (Argenta®)

Magnotica Pro

Discover the Magnotica Pro®:
The ultimate magnetic, contactless door closer

Enhance your home's functionality and aesthetics with the Magnotica Pro®. Enjoy the benefits of a silent, durable, and stylish door closer that complements modern interior design.

Upgrade your interior doors with the Magnotica Pro®, a cutting-edge magnetic, contactless door closer that holds doors shut without the need for handles or latches. This innovative solution ensures durability and noiseless operation, perfect for frequently used doors such as those in walk-in robes or pantries.

Benefits

- **No wear and tear:** With no moving parts, the mechanism is highly durable
- **Noise-Free operation:** Silent opening and closing, ideal for frequently used doors.
- **Easy to use:** Doors can be opened and closed effortlessly without handles or latches
- **Perfect for pivoting doors:** Keeps pivoting doors securely closed, especially when used with the Pivotica® compact pivot system from Argenta®.
- **Concealed screws:** Ensures a clean, streamlined appearance
- **Stylish options:** Available in white, black, or chrome to match any decor.

Ideal Applications

- **Walk-In robes:** Maintain a sleek, noise-free environment
- **Pantries:** Convenient and silent access
- **General interior doors:** Enhance the functionality and aesthetics of any wooden door.

Key Features

- **Contactless operation:** No moving parts, ensuring high durability and minimal wear
- **Silent Mechanism:** Opens and closes doors without any noise, enhancing the peace and tranquility of your space
- **Versatile installation:** Can be installed on any standard wooden door and frame, either vertically on the door's front edge or horizontally on top.
